## Notes and Acronym Definitions

This list of definitions applies to the acronyms found in the **Notes** column in the **Results** section above is static text

**EX Drug Not Covered:** This drug is not covered on your plan. Please contact your physician for assistance or alternatives.

**PA Prior Authorization:** Indicates drugs that require approval by Cigna before dispensing.

**NC Not Covered:** This drug is not covered on your plan. Please contact your physician for assistance or alternatives. Your prescription drug plan requires approval by Cigna to have this drug covered.

**QL Quantity Limit:** Maximum amount (number of pills) that will be approved at one time.

**LDD Limited Distribution Drugs:** Medications used to treat complex conditions affecting a small number of customers with special requirements. Because of this, the manufacturer may choose to limit the distribution of a drug to only a few pharmacies or as recommended by the Food and Drug Administration (FDA), for the drug to be approved.

**ST Step Therapy:** A prior authorization program that encourages the use of less costly yet effective medications before more costly medications are approved for coverage.

**BE Benefit Exception:** This medication is typically not covered by plans. Please check your enrollment materials or coverage documents to determine whether this medication is covered under your plan or contact our call center using the number on your ID card for assistance.
